

THEMED SESSIONS - Lounge Essentials -

There is a huge difference between playing music and creating an atmosphere.
Our Lounge Essentials sessions are designed for those spaces that demand an identity of their own.
Moving away from conventional background music, our DJs explore a sophisticated sonic universe.
From the warmth of Bossa Nova and melodic Jazz to the elegant rhythm of Funk and Flamenco Chill.
It is an authentic sound, mixed with technical sensitivity to accompany the moment without ever becoming invasive

TECHNICAL AND OPERATIONAL PROPOSAL

EXCLUSIVE CONCEPT:

DJ Set specialized in Lounge & Chill Out.

A rigorous selection of non-commercial pieces aimed at an audience with musical criteria.

Sessions executed through real mixing, without automation, adapting the pulse of the music to the energy of the room at every moment.

ATMOSPHERE:

Specifically oriented toward terraces and Lounge areas with a medium-to-high level national and international client profile. The focus is on an immersive sound that allows for fluid conversation and the enjoyment of cocktails without harshness or unnecessary volume peaks.

VALUE ADDED:

Dynamizing the establishment's recreational areas through a premium service that increases stay time and, therefore, consumption. A proposal that elevates the final customer evaluation and improves visibility in reviews and social media.
